Table 1: AppController Command Switches for Application

Switch	Intended Recipient	Source	Platform (Windows or UNIX)
/f <filename>	open a file	Cmnd-Line & Mail Slot	Both
/fr <filename>	open a file read-only	Cmnd-Line & Mail Slot	Windows
/ft <filename>	open a file and track changes visibly	Cmnd-Line & Mail Slot	Both
/fi <filename>	open a file and track changes invisibly	Cmnd-Line & Mail Slot	Both
/c	close all files, save them	Mail Slot	Both
/c <filename>	close filename, save it	Mail Slot	Both
/cnosave	close all files, do not save	Mail Slot	Both
/cnosave <filename>	close filename, do not save	Mail Slot	Both
/p <filename>	print a file	Cmnd-Line & Mail Slot	Both
/d "info"	Retrieves application information (MS Office Apps only)	Mail Slot	Windows
/i	Make application invisible	Mail Slot	Windows
/v	Make application visible	Mail Slot	Windows

Table 2: Command Switches for AppController

Switch	Intended Recipient	Source	Platform (Windows or UNIX)
/a < app code>	start an application	Cmnd-Line	Both
/m <mail-slot name>	partial mail-slot name, AppController will append the Terminal Server session user-id to this string to guarantee uniqueness	Cmnd-Line	Windows
/l 1,2, or 3	logging level. Determines which errors get written to system Event Log. 0 = None 1 = Low, Errors only 2 = Medium, Errors and Warnings 3 = High, Errors, Warnings, and Informational	Cmnd-Line & Mail Slot	Windows
/x <.exe or .bat>	Run this program when AppController exits	Cmnd-Line	Both
/np	AppController will show a "Always On Top" popup window that shows a progress bar. The code behind this window searches for the Default Printer that Tarantella has assigned to this session. This switch prevents AppController from showing this window	Cmnd-Line	Windows
/dn <user-name>	Changes the displayed username key for this execution of AppController. Restores the username when this execution ends (MS Office Apps only)	Cmnd-Line & Mail Slot	Both
/visible	make program form visible	Mail Slot	Both
/invisible	make program form	Mail Slot	Both

	invisible		
/minimize	minimize program form	Mail Slot	Both
/maximize	maximize program form	Mail Slot	Both
/restore	restore program form	Mail Slot	Both
/unload	close all file (with save), stop listening to mail-slot, unload terminal server session	Mail Slot	Both
/quit	make listener stop listening to mail-slot	Mail Slot	Windows
